Groovy Golf THREADS

Not only does Hooters Restaurants sponsor the NGA Hooters Pro Golf Tour, but many of your local Hooters Restaurants hold charity golf tournaments to support local charities. I love playing in local tournaments during the summer because it is always a great time hanging out with friends. While on the course you want to have the right equipment. First things first, you want to look good! You too can have the same eye catching style as Rodney Dangerfield in Caddyshack with brightly colored and patterned duffer's apparel. Irons, Woods, & Putters

When playing golf, you drive for show and putt for dough! The Callaway Diablo Edge Driver certainly will allow you to drive for show! The Diablo Edge Driver uses a fused 4-piece titanium design which gives dad a huge sweet spot and optimal ball flight. The design also reduces drag up to 8% over typical 460cc driver heads

which will increase his club speed. I was extremely impressed with the consistency and accuracy of the Diablo Edge and believe Callaway has something to help your dad hit longer, straighter drives this year. Check out the Callaway Diablo Edge online at www.callawaygolf.com. The STX ProFIT putter can help you make those big putts so your buddies will be buying you cold ones after the round. The ProFIT putters allow you to change the face of the putter to adapt to playing conditions and your putting style. It also has adjustable weights which helps you further customize your putter. For all the technical specs, check out STX Golf online at www.stxgolf.com. Remember that for great Hooters golf gear you can always check out www.hootersgear.com!
